[Docket No. USCG-2013-0928]

Drawbridge Operation Regulation; Delaware River, NJ

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the bascule span of the Tacony-Palmyra Bridge (Route 73), across the Delaware River, mile 107.2, between the townships of Tacony, PA and Palmyra, NJ. The deviation is necessary to facilitate the replacement of the bridge deck. This deviation allows the bridge to remain in the closed to navigation position during the rehabilitation project.

DATES: This deviation is effective from 9 p.m. on Friday, June 13, 2014 until 9 p.m. on Saturday, June 21, 2014.

SUPPLEMENTARY INFORMATION: The Burlington County Bridge Commission, who owns and operates this bascule drawbridge, has requested a temporary deviation from the current operating regulations to facilitate the resurfacing of the bridge roadway. The Tacony-Palmyra Bridge (Route 73) at mile 107.2, across the Delaware River, between PA and NJ, has a vertical clearance in the closed position of 50 feet above mean high water.

Under the current operating schedule set out in 33 CFR 117.5 and 117.716(b): The regulation requires that the drawbridge must open promptly and fully for the passage of vessels when a request or signal to open is given, and that the opening not be delayed more than five minutes.

Under this temporary deviation, the bridge will be closed-to-navigation from 9 p.m., on June 13, 2014 until 9 p.m., on June 21, 2014. Vessels able to pass through the bridge in the closed position may do so at anytime. The bridge will not be able to open for emergencies and there is no alternate route for vessels to pass this section of the Delaware River.

The Coast Guard has coordinated this with the Pilots Association for the Bay and Delaware River, and will inform the users of the waterway through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation. Waterway traffic consists of freighters, recreational boats, tugs, and barges.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: April 9, 2014.

Bridge Program Manager,
